PROJECT

UNIVERSITY MANAGEMENT SYSTEM

TECHNOLOGIES: PHP, HTML, CSS, JavaScript, XAMPP (MySQL, Apache)

Created a comprehensive system for managing university operations, including student registration, course management, attendance tracking, and notice dissemination. Key features: dynamic navigation bar, student and staff portals, secure login system, admin dashboard, and real-time notifications. Utilized MySQL for database management and XAMPP for local server setup, ensuring a responsive and user-friendly design.
